At Stratham Hill Stone and LandCare, we proudly source, stock and deliver the largest selection of natural materials for projects of all sizes.

From the seacoast and lakes regions of New Hampshire to the southern coastal areas of Maine, we have supplied our two New Hampshire stores with all the natural stone, paver materials and landscape products that builders, contractors, designers and homeowners will need to plan any building, architectural, masonry or landscape project.

We represent some of the best-known and most select stone quarriers in New England, New York and Pennsylvania. It’s both exciting and important that our customers are able to know where their stone is from—so we are dedicated to sharing our knowledge about each quarry and the capabilities of a given stone.

We accept all major credit cards

Hours of operation

April through October 31
Monday-Friday: 7:00 AM to 4:30 PM
Saturdays: 7:00 AM –3:00 PM
Sundays: Closed

November 1st through March 31st
Monday-Friday: 7:00 AM –4:00 PM
Saturdays and Sundays: Closed

Winter storm hours: Call our storm phone hotline at (603) 749-9797 for storm updates and hours of operation during winter events. Text alerts are also sent during winter events with store hours and notifications.

Check our websites for seasonal hours and holiday closings.
Our Services

- We source our stone from New England quarries.
- We fabricate to customize your stone.
- We offer engraving for stone of every size.
- We deliver using our fleet of flat beds and dump trucks.
- Need it installed? Ask about our network of professional contractors!

New Quarried Granite

Our granite steps, posts and landings originate in Vermont and Quebec from some of the world’s largest granite quarries.

Vermont Barre Granite shows the notable salt-and-pepper colors and has been the most commonly used granite in New England for over two centuries.

Caledonia Granite is quarried in Canada and is uniquely different, displaying a gray/black mottled finish with highlights of mica and pink quartz.

Granite steps and landings

Standard lengths are available from 3’–8’ with 7” height. Steps have a standard 13” depth. Surfaces of all pieces have a thermal top finish.

Barre Granite available in Split and Rock Face. Caledonia Granite available in Rock Face only.

- **Split Face:** Steps have 4 sides that are split with a guillotine, producing a natural cleft edge.
- **Rock Face:** Steps have 3 hand-chiseled sides, producing a convex, pronounced edge.

**Thermal finish:** Slightly textured, non-skid finish. Produced using a high temperature process.

Larger sizes in steps and landings and custom-cut fabrications are available through special order.

Fillers for step kits are available in Barre Granite in 1’–7’ lengths. Larger filler lengths and Caledonia fillers are available through special order.

Always check on availability in all sizes of granite and allow up to 4 weeks on certain sizes.

*Caledonia Granite may require longer wait times.

We source our stone from New England quarries and we fabricate to customize your stone.

Especially in New England, the “stone fence” connotes steadfast longevity and stability, something built to last. It speaks of resiliency and remains the silent supporter of everything around it—silent, steady, strong. With a multitude of colors and nuances of shades, stone walls reflect the character of the person who built it.

Usually stacked on pallets, wall stone comes in almost every shape and color. It is common to blend pallets of different sizes and stone of similar colors to create walls with varying heights, widths and tones.

**Pennsylvania Wall Stone**

Very natural earth tones. Dark browns, tans and grays with a hint of dark maroon and plum. Fairly angular, popular and easy to build with. A softer stone that’s easier to break and manipulate. Stacks fast.

**Size description:** 1”–3” and 4”–6” pallets  
**Weight per pallet:** Approx. 3000 lbs  
**Coverage per pallet:** 15–20 cuft  
*Also available as veneer.*

**New England Fieldstone**

Primarily from Massachusetts, New Hampshire and Connecticut. Salt-and-pepper grays, tans and browns. A blend of roundish and blocky shapes. Generally, a hard stone that can be shaped and manipulated with a hammer and chisel.

**Size description:** 6”–18” mixed sizes on each pallet  
**Weight per pallet:** Approx. 3000 lbs  
**Coverage per pallet:** 15–20 cuft  
*Also available as veneer.*

**Whiteline**

From Massachusetts and Connecticut. White lines of quartz run through this grayish green granite. Blocky with square sizes, make it easy to use. Easily manipulated with a hammer and chisel.

**Size description:** Available in a thin (1”–3”) or a thick (2”–8”) size mix  
**Weight per pallet:** Approx. 3000 lbs  
**Coverage per pallet:** 15–25 cuft  
*Also available as veneer.*

**Colonial Gray**

From Pennsylvania and New York. Part of the softer bluestone family. Primarily a pale gray stone with hues of blue, mossy greens and striations of browns and tans. Flat and blocky, easy to use and shape.

**Size description:** Available in a thin (1”–3”) or a thick (4”–6”) size mix.  
**Weight per pallet:** Approx. 3000 lbs  
**Coverage per pallet:** 15–20 cuft

**Green Mountain**

From eastern Vermont, central and western New Hampshire. A blend of granites. Lots of color and characteristic of New England. Blue-gray, striations of white, tan, and brown. Fairly blocky and square. An easy stone to use but a hard stone that can be shaped and manipulated with a hammer and chisel.

**Size description:** Available in a thin (1”–3”) or a thick (4”–6”) size mix.  
**Weight per pallet:** Approx. 4500 lbs  
**Coverage per pallet:** 15–20 cuft

**Olde Chester**

From western New Hampshire and eastern Vermont. A mica schist granite with speckles and striations of shiny black, white and grays. Tones of light browns and mottled tans. A beautiful stone. Fairly flat and consistent, making it easy to use. Somewhat soft, so more easily manipulated with a hammer and chisel.

**Size description:** Available in a thin (1”–3”) or a thick (4”–6”) size mix.  
**Weight per pallet:** Approx. 4500 lbs  
**Coverage per pallet:** 15–25 cuft  
*Also available as veneer.*

---

**Need it installed? Ask about our network of professional contractors!**
Adirondack
From the hills of the Adirondack mountains in New York State, part of our NY stone category. A blend of rustic earth tones. Beige, gray, cranberry, purple, pink, rust, antique white, brown and garnet chips with quartz highlights. A medium to coarse grained blocky granite. Can be shaped with a hammer and chisel.
Size description: Available in a wall mix (4”–18”) or uni-wall (generally uniform thickness)
Weight per pallet: Approx. 3500 lbs
Coverage per pallet: 15–25 cuft
Available as veneer

Dolph Pond
Eye-catchng with distinctive striations of garnet and quartz to create a mixture of gray, purple, cranberry and white. A medium to coarse grained, blocky granite. Can be shaped with a hammer and chisel.
Size description: Available in a wall mix (4”–18”) or uni-wall (generally uniform thickness)
Weight per pallet: Approx. 3500 lbs
Coverage per pallet: 15–25 cuft
Available as veneer

Hawthorne
A blend of pink, gray and white, highlighted with quartz and mica. This distinctive granite blends modest coloring and rich texture. A medium to coarse grained, blocky granite. Can be shaped with a hammer and chisel.
Size description: Available in a wall mix (4”–18”) or uni-wall (generally uniform thickness)
Weight per pallet: Approx. 3500 lbs
Coverage per pallet: 15–25 cuft
Available as veneer

Blue Mountain
This stone offers a consistent blend of blue, green, gray and white with rust overtones. A beautiful and elegant stone. A medium to coarse grained, blocky granite. Can be shaped with a hammer and chisel.
Size description: Available in a wall mix (4”–18”) or uni-wall (generally uniform thickness)
Weight per pallet: Approx. 3500 lbs
Coverage per pallet: 15–25 cuft
Available as veneer

Chestnut Hill
From central New Hampshire. Lots of striations and blends of gray, blue, white and tan with rust tones. Fairly flat and blocky. Fine-grained, hard stone. Can be shaped with a hammer and chisel.
Size description: 3”–18” mixed pallets
Weight per pallet: Approx. 3000 lbs
Coverage per pallet: 15–25 cuft

Autumn Wall
From central and coastal Maine. A variation of colors similar to Chestnut Hill. These two are often blended together. Autumn Wall is a schist granite with more mica, making it a bit shinier and not as dense. Flat and blocky and easily manipulated.
Size description: 3”–12” mixed pallets
Weight per pallet: Approx. 3000 lbs
Coverage per pallet: 15–25 cuft

Black Mountain Wall
From central and coastal Maine. A variation of granite colors. This classic square and blocky wall stone makes a handsome, well-built wall. Popular among masons and landscapers for its relative ease of use and consistent shape.
Size description: 6”–18” mixed pallets
Weight per pallet: Approx. 3000 lbs
Coverage per pallet: 15–20 cuft

Oak Hill
From central and coastal Maine. A very fine-grained, salt-and-pepper granite. Quintessential gray, blocky granite. Easily blended with our Chestnut Hill and Autumn Wall stone. Can be manipulated with a hammer and chisel.
Size description: 4”–12” mixed pallets
Weight per pallet: Approx. 3000 lbs
Coverage per pallet: 15–25 cuft
Available as veneer
The word “flagstone” is derived from the old English word “flagge” meaning “turf” and perhaps from the older Norse word “Flaga” meaning “slab” or “chip”. Our flagstone options represent a flat stone generally used for the paving of walkways, patios, facades and similar construction.

With choices in color, texture, size, shape and arrangement, each flagstone area will be crafted to say something about its author, owner and the builder—it is often the most welcoming place in the landscape.

Pennsylvania Bluestone – General Terms & Facts
This family of stone from the hills of Pennsylvania and New York is all part of the bluestone family. It is available in a variety of colors, sizes, shapes and finishes.

Colors available: Full color. Shades of blue/gray, green, lavender, tan and brown. Also blue/blue, which is primarily a hand-selected blue with little color variation.

Surface finishes available:
Natural Cleft—The natural face of the stone when extracted from the quarry, not perfectly smooth or even.
Thermal surface—The surface has been heated to remove imperfections, making a non-skid, flat surface.

Thickness of stone: will be gauged at either 1.5" or 2".
Pattern stock sizes available: 12" x 12", 12" x 18", 12" x 24", 18" x 18", 18" x 24", 24" x 24", 24" x 30", 24" x 36"

Large, Irregular Flagstone
These large sheets of stone will measure from approximately 1.5’–5’ wide and can range from approximately 2’–7’ long. Available as full color or blue/blue with either a natural cleft or thermal finish.

Weight per pallet: 3500–4500 lbs
Coverage per pallet: 75–120 sqft (depends on joint spacing)
Sold by the piece or pallet

Pennsylvania Garden Path
Pieces vary in size from 1’–3’ long and 1’–2’ wide. Available as full color or blue/blue with either a natural cleft or thermal finish.

Weight per pallet: 3000 lbs
Coverage per pallet: 75–120 sqft (depends on joint spacing)
Sold by the piece or pallet

Tumbled Irregular Garden Path
This stone has been put through a large tumbling machine giving the edges a softer, smoothed and rounded appearance. Pieces vary in size from 1’–3’ long and 1’–2’ wide. Only available as full color with a thermal finish.

Weight per pallet: 3200 lbs
Coverage per pallet: 100–120 sqft (depends on joint spacing)
Sold by the piece or pallet

Pattern Bluestone
Cut to specific sizes for use in patterns. Available as full color or blue/blue with either a natural cleft or thermal finish.

Sizes available: 12" x 12", 12" x 18", 12" x 24", 12" x 30", 12" x 36", 18" x 18", 18" x 24", 18" x 30", 18" x 36", 24" x 24", 24" x 30", 24" x 36"

Pattern Tumbled Bluestone
Cut to specific sizes for use in patterns. Only available as full color with a thermal finish.

Sizes available: 6" x 6", 6" x 12", 12" x 12", 12" x 18", 12" x 24", 18" x 18"

Pennsylvania Garden Path
Pieces vary in size from 1’–3’ long and 1’–2’ wide. Available as full color or blue/blue with either a natural cleft or thermal finish.

Weight per pallet: 3000 lbs
Coverage per pallet: 75–120 sqft (depends on joint spacing)
Sold by the piece or pallet

Tumbled Irregular Garden Path
This stone has been put through a large tumbling machine giving the edges a softer, smoothed and rounded appearance. Pieces vary in size from 1’–3’ long and 1’–2’ wide. Only available as full color with a thermal finish.

Weight per pallet: 3200 lbs

Cut to specific sizes for use in patterns. Available as full color or blue/blue with either a natural cleft or thermal finish.

Sizes available: 12" x 12", 12" x 18", 12" x 24", 12" x 30", 12" x 36", 18" x 18", 18" x 24", 18" x 30", 18" x 36", 24" x 24", 24" x 30", 24" x 36"

Pattern Tumbled Bluestone
Cut to specific sizes for use in patterns. Only available as full color with a thermal finish.

Sizes available: 6" x 6", 6" x 12", 12" x 12", 12" x 18", 12" x 24", 18" x 18"
Ridgeline Flagstone
From the hills of central Connecticut. Generally in large pieces meant to cover a lot of real estate. The color can be silver/gray, shades of browns, mauve and natural earth tones. This stone often has a glitter because of its schist and mica content. Thickness: 1.5”–3”
Irregular shapes: Small/ medium: 6”–18” diameter. Medium/large: 18”–36” diameter. Large oversized: 36”–72”
Weight per pallet: 3500–4500 lbs
Coverage per pallet: Varies, depends on joint spacing
Sold by the piece or pallet

New England Flagstone
Thickness: 1.5”–2”. Irregular shapes. Small/medium: 6”–18” diameter.
Weight per pallet: 3000 lbs
Coverage per pallet: 75–95 sqft (depends on joint spacing)
Sold by the piece or pallet

Olde Chester Flagstone
From western New Hampshire and eastern Vermont. A mica schist granite with speckles and striations of shiny black, white and grays. Tone of light browns and mottled tans. A beautiful stone. Fairly flat and consistent, making it easy to use.
Thickness: 1.5”–3”. Irregular shapes. Small/medium: 12”–36” diameter. Large oversized: 36”–60”
Weight per pallet: 3000 lbs
Coverage per pallet: Varies, depends on joint spacing
Sold by the piece or pallet

Green Mountain Flagstone
Thickness: 1.5”–3”.
Irregular shapes: Small/medium: 12”–36” diameter. Large oversized: 36”–60”
Weight per pallet: 3000 lbs
Coverage per pallet: Varies, depends on joint spacing
Sold by the piece or pallet

Whiteline Flagstone
From Massachusetts and Connecticut. White lines of quartz run through this grayish-green granite.
Thickness: 1.5”–2”. Irregular shapes. Small/medium: 6”–18” diameter.
Weight per pallet: 3000 lbs
Coverage per pallet: 75–120 sqft (depends on joint spacing)
Sold by the pallet

Colonial Gray Flagstone
From Pennsylvania and New York. Part of the bluestone family. Primarily a pale gray stone with hues of blue, lavender, mossy greens and striations of browns and tans.
Size: Pieces vary from 1’–3’ long and 1’–2’ wide.
Weight per pallet: 3000 lbs
Coverage per pallet: 75–120 sqft (depends on joint spacing)
Sold by the piece or pallet

Mystic Mountain Stone
This Maine stone reflects all 3478 miles of the state’s coastline. Hues of blues and turquoise and brushed with tones of dark purples, mauves, emerald greens and white quartz. Truly one of the most beautiful stones we sell.
Available in multiple forms and as an irregular flagstone, cut patio stone, steps and landings.

Vermont, Maine & New York Slate
Available in a variety of colors. Red, black, green and mottled colors.
Thickness: 1”–2”. Mostly irregular shapes.
Sold by the piece by weight

Cut Steps & Landings

Depending on the stone, natural stone can be fabricated to specific measurements to be used for interior/exterior projects and architectural specifications.

Most commonly used: Bluestone, Green Mountain, Adirondack (Hawthorne only), Heritage Valley and Oak Hill.

Natural steps & landings

Our Natural steps and landings are quarried stones that are harvested to be used as they are. These are used to create large steps and platforms ranging in size from 4–10’, with relatively flat surfaces and faces.

Most commonly used: Bluestone, Green Mountain, Ridgeline, Chestnut, Whiteline, Olde Chester and Adirondack.

Antique Granite

Our Antique Granite is repurposed from old buildings, foundations and construction. We source and stock antique posts, steps, markers, landings and specialty pieces.

Granite & Bluestone Tread Stock

These stone options can be fabricated to specific measurements and can be used for stair treads, wall and pool coping, hearths, mantles and architectural specifications.

The standard finish on these treads is rock-faced, thermal or split-faced on 3 sides with a thermaled top to remove imperfections and create a flat, non-skid surface.

Retaining Walls

**Diamond Straight Face**
- **Description:** The dependability of Diamond® retaining wall systems has made them the preferred choice for decades. The straight-split face provides clean lines for a wide range of retaining wall projects.
- **Selling Units:** Pallet = 30 sqft, Piece = 0.70 sqft
- **Color:** Gray, Tan

**Diamond Beveled Face**
- **Description:** The dependability of Diamond® retaining wall systems has made them the preferred choice for decades. The straight-split face provides clean lines for a wide range of retaining wall projects.
- **Selling Units:** Pallet = 30 sqft, Piece = 0.66 sqft
- **Color:** Granite Blend, Earth Blend

**Diamond Stone Cut**
- **Description:** The dependability of Diamond® retaining wall systems has made them the preferred choice for decades. The rounded, rough-hewn face creates walls that are pleasing and functional.
- **Selling Units:** Pallet = 30 sqft, Piece = 0.66 sqft
- **Color:** Granite Blend, Earth Blend

**Highland 3" Retaining**
- **Description:** Create a natural stone appearance with Highland Stone retaining wall. The 3" and 6" system combines earth tones, rich textures, varied contours and all the advantages of the structurally sound rear lip locating system, making it reliable and easy to install. The 3" and 6" can be installed separately or can be combined to create a stunning natural-looking wall.
- **Selling Units:** Pallet = 30 sqft, 3" Set = 0.745 sqft, 6" set = 1.5 sqft
- **Color:** Lakeshore, Granite Blend, Meadow, Earth Blend, Riverbed

**Highland 6" Retaining**
- **Description:** Create a natural stone appearance with Highland Stone retaining wall. The 3" and 6" system combines earth tones, rich textures, varied contours and all the advantages of the structurally sound rear lip locating system, making it reliable and easy to install. The 3" and 6" can be installed separately or can be combined to create a stunning natural-looking wall.
- **Selling Units:** Pallet = 30 sqft, Piece = 0.66 sqft
- **Color:** Granite Blend, Earth Blend

**Olde Boston Wall**
- **Description:** The Olde Boston Wall is a versatile block. Its modular dimensions of a single unit allow placement in four different orientations and a variety of patterns, including running bonds, random and ashlars. It can be used for garden walls, seating walls, planter walls, barbecue islands, pillars and columns.
- **Selling Units:** Pallet = 34.8 sqft, Piece = 3.1 sqft
- **Color:** Quarry Blend, Vineyard Blend, Rosewood Blend (special order)

**Ancestral Roman Wall**
- **Description:** The modular dimensions of the single unit allow placement in different orientations and the ability to create a variety of patterns including running bonds, random and ashlars for design flexibility. It can be used for a wide variety of applications such as garden walls, seat walls, planter walls, pillars and columns. It features a drum roll tumbled finish and three varieties of colors.
- **Selling Units:** Pallet = 34.8 sqft, Piece = 0.32 sqft
- **Color:** Quarry Blend, Rosewood Blend, Vineyard Blend

**Gravity Stone**
- **Description:** Gravity Stone combines the simplicity of easy-to-handle dry stack units with the superior earth retention capabilities of crib wall structures. As a result, GravityStone walls can be built as high as 8’ without the use of geogrid, saving time, labor and space. It can be used to build straight or curved as well as free-standing or double-sided walls. These walls can be built at sites where there is little to no room for geogrid. This block comes in a Split Face and a Tumbled finish.
- **Selling Units:** Split Face = 64 sqft/plt, Tumbled = 64 sqft/plt
- **Color:** Granite Gray, Quarry Blend, Vineyard Blend

**Sigma Wall Stone**
- **Description:** The Sigma wall is a versatile system that can be used in applications ranging from small residential walls to large commercial projects. This system is available in 6" and 8" heights and either a split face or a renaissance style finish. The hexagon shape allows for walls with a tight radius and features pre-made left or right corners.
- **Selling Units:** 6" Pallet = 32 sqft, 8" Pallet = 36 sqft
- **Color:** Toffee Onyx, Oynx Natural, Sahara Chestnut

**Maytrx Wall Stone**
- **Description:** This multi-face system has 4 wall stones, each a different size. This stone is available in a 3" and 6" size, making it versatile for many applications, from seat walls to larger retaining walls. Maytrx is available in a Split Face finish or Renaissance finish.
- **Selling Units:** 6" Pallet = 33.4 sqft, 3" Pallet = 33.4 sqft
- **Color:** Toffee Onyx, Oynx Natural, Sahara Chestnut

**Ancestral Roman Wall**
- **Description:** The modular dimensions of the single unit allow placement in different orientations and the ability to create a variety of patterns including running bonds, random and ashlars for design flexibility. It can be used for a wide variety of applications such as garden walls, seat walls, planter walls, pillars and columns. It features a drum roll tumbled finish and three varieties of colors.

Masonry Products, Additives & Accessories

We stock mortar mixes and cement products for brick, block and stone. We carry brands like: Umaco, Conproco, Ardex, Laticrete and Dragon. We sell concrete tools and accessories; lath, paper, screws, cement board and more!

Type S Mortar Mix ProMasonry by Conproco
ProMasonry Type S Mortar is a blend of masonry cement and sand, designed for laying brick, block and stone, or pointing, plastering and stuccoing. Size: 80 lbs

Ardex
Easy to use products for smoothing, waterproofing and adhering veneer stone, brick and manufactured stone.

Laticrete Hi-Bond Veneer Mortar
MVIS™ Veneer Mortar is a patented, versatile polymer-fortified mortar designed specifically for the installation of adhered masonry veneer, natural manufactured stone and thin brick. Size: 50 lbs

UMACO Thin-Stone Veneer Mortar
Thin-Stone Veneer Mortar is a select blend of aggregates, Portland cement, dry-polymers and special additives designed to provide optimum bond and durability when installing a variety of natural, thin-stone veneers over properly prepared substrates. Thin-Stone Veneer Mortar meets the requirements of a Type S mortar. Size: 94 lbs

Dragon Type N Masonry Cement
A mortar mix Type N is usually recommended on exterior and above-grade walls that are exposed to severe weather and high heat. Size: 70 lbs

Dragon Type S Cement
Dragon’s Type S Cement is produced in Type S strength and used in most masonry applications. Size: 75 lbs

Firebrick by Whitacre Greer
One of the most important parts of a fireplace or fire pit is the firebrick which lines the firebox and endures the high heat. Available in 1 ½” and 2” thickness. Size: 9” x 4.5” x 1.25”, 9” x 4.5” x 2.5”

Polymeric Sand

Alliance Haze Free Super Sand
Available in Beige, Slate Gray and Black Diamond. Size: 50 lbs

Alliance Gator Dust
Available in Sahara Beige, Stone Gray. Gator Dust is ideal for joints that are a minimum of 1/2” to a maximum of 6” wide. Size: 50 lbs

PolySweep Polymeric Sand
A blend of native sands and binders that allow the joints to expand and contract with the elements such as extreme heat, extreme cold and freeze/thaw cycles. Will not discolor the surface or leave behind a haze. Recommended for joints up to 3/4” (max). Colors Available: Gray and Platinum

X-Treme Wide Joint PolySweep Polymeric Sand
A high performance sand stabilizer for joints ranging from 1/8” up to 4”. Designed to work with pavers, slabs and natural stone with a minimum 1.25” joint depth to maintain a strong joint. Colors Available: Russet Brown, Gray and Platinum

Edging Products & Spikes

Gator Edge Flex and Rigid Edging
Polypro Paver Restraint System. Available in 8’ lengths and allows for a continuous run with a “Twist & Lock” connection system. Secures in place with our 10” spikes.

Universal Paver Rail Edging
Polypro Paver Restraint for straight or curved applications. Individual 8’ lengths, non-connecting. Secures in place with our 10” spikes.

Curv-Rite Stable Edge Aluminum Paver Restraint
Rigid and flexible, non-warping, non-rusting. Minimal view, maximum impact! 8’ lengths available in Black and Mill finish. Secures in place with our 10” spikes.

Curv-Rite Aluminum Landscape Edging
Clean delineation between garden beds, lawns and stone areas. Flexible, Secure connection points. 8’ lengths available in Black and Bronze. 3 spikes included.

10” Spiral Spikes.
Available by the piece or 50-lb box.
SRW Fabrics for landscape and construction projects.

Professional (15 yr) Polyspun/Need Control:
For landscapes and flower gardens to control weeds. This fabric type allows air, water and nutrients to pass through to promote plant health by minimizing weed growth.
Sizes: 3’ x 50’, 3’ x 100’, 4’ x 50’, 4’ x 100’, 6’ x 100’

Pro Plus IV (20 yr): A double-sided geotextile for use as a soil/landscape stabilization and weed barrier under landscape beds, gardens, decks, patios and sidewalks.
Sizes: 3’ x 50’, 3’ x 100’, 4’ x 50’, 4’ x 100’, 4’ x 250’, 6’ x 100’

Contractor (10 yr) Polyspun: For landscapes and flower gardens to control weeds.

SSS – Woven: For stabilization under paver projects, base reinforcement under roadways and ground cover for greenhouses or nurseries.
Sizes: 4’ x 50’, 4’ x 100’, 6’ x 100’, 12.5’ x 108’

NW 4.5 Non-Woven Drainage/Filtration: Allows high-water flow, drainage protection, erosion control, filtration, general landscape, and stabilization/separation.
Size: 4’ x 100’

Permeable 350: For permeable paver systems.
Size: 6’ x 100’

Silt Fence: To temporarily control sediment on construction sites.
Size: 3’ x 100’

Retaining Wall Geogrid:
Sizes: 4’ x 50’, 6’ x 50’, Mirafi 2 XT 4’ x 45’

Specialty Clean™ EF EFFLORESCENCE (1 gal):
Used to dissolve efflorescence on pavers, concrete, brick and clay.

Specialty Clean™ CD CLEANER and DEGREASER (1 Qt.):
Used to remove grease, oil and dirt.

Specialty Clean™ RE RUST ELIMINATOR (1 Qt.):
Removes rust.

Specialty Clean™ MC MOLD, MOSS and MILDEW CLEANER (1 Qt.):
Breaks down mold, moss, mildew, lichen, and algae deep-down at its source.

OC ORGANIC STAIN CLEANER (2 lbs):
Breaks down organic stains from leaves, pine needles, acorns, fruit, wine, etc.

Specialty Clean™ XY XYLENE SOLVENT (1 gal):
Fast-acting solvent that thins and dissolves acrylic sealers to aid in tool clean-up and overspray.

Premium Stone Clean™ SW Stone Wash (1 gal):
General-purpose natural stone wash to prepare natural stones for sealing.

Wetcast Clean™ WW WETCAST WASH (1 gal):
A general-purpose cleaner to prepare wetcast products for sealing.

Techniseal SR (1 gal):
Removes cement slurry and polymeric sand haze.

PSX PENETRATING X-TREME (1 gal):
Invisible/natural-look finish for use on permeable paver systems, concrete/clay pavers.

DG DUAL GUARD (1 gal):
High-gloss, wet-look finish for use on concrete pavers, most natural stone, wetcast and cultured stone.

S-PSX PENETRATING X-TREME (1 gal):
A sealer for high traffic areas that need commercial-grade protection. For use on granite/quartz, marble/travertine, limestone, bluestone/sandstone.

W-PSX PENETRATING X-TREME (1 gal):
Interior/exterior wetcast sealer with an invisible/natural-look finish.
These are sold by the yard or by weight. Pictures in this catalog are representative and actual colors of purchased products may vary.

**Bedding Sand**

*Uses:* Leveling base for walkways and patios

**All-Purpose Sand**

*Uses:* Bedding for flagging and paver projects, sand boxes and site fill

**Masonry Sand**

*Uses:* Cement mixes, under pool linings and waterfront areas

**3/4” Crushed Stone**

*Uses:* Driveways, walkways, drip edges and drainage

**3/8” Crushed Stone**

*Uses:* Great for walkways and garden paths

**1 1/2” Crushed Stone**

*Uses:* Drainage, water runoff, drip edges and vehicular areas

**3/4” Crushed gravel**

*Uses:* Driveways, base prep for walkways and patios, hard-packed fill

**3”–5” Riprap**

*Uses:* Heavy drainage, water runoff, stabilization and erosion control

**White Stone Dust**

*Uses:* Bedding for flagging and brick pavers, driveways, horse paddocks, informal pathways and vehicular areas

**Blue Stone Dust**

*Uses:* Bedding for flagging and brick pavers, driveways, pathways and vehicular areas

With choices in color and size, our selection of round and decorative stones are used in drip edges and permeable areas, water features, driveways, patios, walkways and garden settings.

**Madison River Stone**

*Our signature round stone is a perfect mix of blue/gray, white and dark grays all in a naturally round stone. The beautiful color mix is similar to the beach stone we see in the New Hampshire and Maine seacoast.*

*Available in 3 sizes: 3/8”, 1”, 1”–3”*

**Western Round Decorative**

*Our finest decorative stone. Natural and round, like the stones seen at the bottom of a mountain stream. Use as the main feature or as the supporting act in any landscape.*

*Available in 3 sizes: 1/2”, 1”, 1”–3”*

**Natural Round River Stone**

*Tan to brown and gray tones. Mostly round.*

*Available in 3 sizes: 1” buttons, 1”–3”, 3”–5”*

**Mexican Beach Stone**

*Available in 3 sizes: 1” buttons, 1”–3”, 3”–5”*

**Kiwanee Skippers and Rounds**

*4”–10” smooth, flat and round stones in multiple colors.*

**White Stone Dust**

*Bedding for flagging and brick pavers, driveways, horse paddocks, informal pathways and vehicular areas*

**Crushed Seashells**

*½” New England Pea Stone*

*Available in 2 sizes: 1/4” (shown) and 3/4”*

**Crushed Blue Granite**

*We deliver using our fleet of flat beds and dump trucks. See page 40 for details.*

Compost, Loam & Mulch

We make our own screened loam, compost and soil mixes!

Dark Blend Mulch
An all-natural pine mulch that is seasoned to generate its rich, brown color.

Midnight Magic
A mixture of aged pine bark and forest wood products is enhanced with a natural color component to keep its rich, black color.

Red Hemlock
A blend of hemlock, pine and forest grindings with an all-natural color component added to give it a rich, dark, red look.

Nutri Mulch
We mix our mulches with our house-made compost to produce a 50/50 blend, which gives planting beds an all-natural feeding while inhibiting weeds.

Playground Mulch
ASTM Certified pine chips with no bark. Used for play areas and garden paths.

Screened loam • Superloam • Compost
We make it—100% natural!

Winter Sand & Salt Products

We stock winter ice melt products to fight the tough New England winter—Kissner, STS, Cutting Edge, bulk salt, treated salt and sand blends.

We are open during winter storms!
Call our storm phone hotline: (603) 749-9797 and press 9.

We deliver! See page 40 for details!

Mulch | 10 yards | 25 yards
Loam | 8 yards | 18 yards
Compost | 8 yards | 20 yards
Aggregates | 8 yards | 18 yards
Pallets (all items) | 8 pallets | 14 pallets
Firewood | 1 cord | 3 cords
Salt and Salt/Sand | 8 yards | 18 yards

All sales are subject to the Terms and Conditions at www.landcareassociates.com.

Returns Policy

Returns are not accepted for any bulk materials. An original sales receipt is required for non-bulk product returns within 15 days from the original date of purchase. Any materials that have been opened, broken, damaged or partially used cannot be returned.

A re-stocking fee of 20% will be issued to all returns.

Returned materials will be refunded within 45 days generally in the same manner as they were purchased. Cash refunds will not exceed $50. Remaining balances may be transferred to a ‘house credit’. All prices are subject to change without notice.

Installation of soils, mulches or aggregates

During warm weather, when installing any soils, mulches or aggregates, all products should be watered immediately after they are installed to reduce possible heat stress that may occur especially around lawns and plants.

The Customer agrees to indemnify LCA and hold harmless against any and all loss or claim by any person or entity as a result of personal injury or property damage occasioned by the condition of the customer’s property. Customer is responsible for identifying thru DigSafe® and others and notifying LCA in written form of any underground utilities including but not limited to septic systems, leach fields, cables, wires, utilities, boxes, drainage, pipe or other items that could suffer damage as a result of delivery or installation equipment.

Scheduling

LCA advises its customers to place orders up to 7 days before the desired delivery date, and allow up to 4 weeks for non-stocked items. Due to unforeseen conditions and those not within our control, LCA may offer but cannot guarantee the option of an AM or PM delivery. During the process of ordering, you will be asked for specific delivery instructions, including directions, driving strategies, and dumping instructions. Having a clearly marked area for dumping helps to insure customer satisfaction and helps negate the need for the customer to be home during delivery. During wet weather, LCA advises that customers give ample time for areas to dry out to avoid damage or call LandCare/SHS with an alternate dumping location.

- One yard of aggregate weighs approximately 2500 lbs
- One yard of loam weighs approximately 2500 lbs
- One yard of mulch weighs approximately 1000 lbs
- One yard of soil, mulch or aggregate covers an area of approximately 10’ x 10’, (100 sqft) x 3” deep.

Delivery Vehicle Information

Our Trucks and delivery equipment need a minimum area of 10 feet wide, 30 feet long and 15 feet in height clearance. Our trucks and delivery equipment are heavy and most weigh over 30,000 pounds. We will assume no liability for damages to property occasioned by the condition of the property including asphalt areas. We cannot move materials once they are delivered. If the dump area is not clearly marked and visible to our delivery operators, operators will dump material at areas most reasonably assumed based on directions and markings. Even if the area is well marked, there are times when we cannot access the marked area due to conditions that are out of our control. If, after every reasonable attempt to contact the material recipient has failed, our delivery operators, at their discretion, will put the material in the most reasonable area nearest to where it was intended to go.

We Deliver!

Need it installed? Ask about our network of professional contractors! landcareassociates.com (603) 749-9797 strathamhillstone.com (603) 431-0088
